

PROJECT PROFILE

Project Title	: Domestication, Sustainable Utilisation and Conservation of <i>Pterocarpus santalinus</i> (Red Sanders) Genetic Resources
Name of the Sub-Projects	: Sub project 3: Genetic structure assessment for genecological zonation
Project Co-ordinator	: Director, IFGTB
Principle Investigator	: Dr. R. Yasodha, Scientist G
Co Investigators	: Dr. Rekha R. Warriar, Scientist F Dr. A. Balasubramanian, Research Officer
Duration	: 2020-2023
Objectives	1. Estimation of genome size and development of SSR markers for red sanders 2. Population structure and genetic diversity analysis for genecological zonation
Funding Agency	: National Biodiversity Authority
Total Budget	: Rs. 50.80 lakhs
