

PROJECT PROFILE

- Project Title:** : **Domestication, Sustainable Utilisation and Conservation of *Pterocarpus santalinus* (Red Sanders) Genetic Resources**
- Name of the Sub-Projects** : Sub project 2: Developing micropropagation techniques for mass multiplication of identified genotypes of *Pterocarpus santalinus*
- Project Co-ordinator:** : Director, IFGTB
- Principle Investigator** : Dr. Rekha R. Warriar, Scientist F
- Co Investigators:** Mrs. K. Shanthi, CTO
Mrs. R. Mahalakshmi, TO
- Duration:** : 3 Years (2020-2023)
- Objectives:**
1. Refine micropropagation protocols for identified superior red sanders germplasm.
 2. Assess the performance of the micro and macro propagated plants under field conditions.
- Total Budget** : Rs. 18.60 lakhs
