

## **PROJECT PROFILE**

**Title:** Genetic Improvement of *Gmelina arborea* Roxb. through selection and clonal evaluation.

**Principle Investigator:** A.Mayavel

**Co Investigators:** Shri. A.Durai RO,  
Dr.S.P.Subramanian , R.A.I

**Duration:** **5 Years (2011-2016)**

**Objectives:**

- To identify natural population of *G. arborea* in southern parts of India.
- To select individual tree based on the tree form, wood trait and growth superiority.
- To study the phenological and floral variations among the selected CPTs.
- To establish progeny trial and clonal trial from the selected phenotypes for future breeding program.

**Funding Agency:** **NFRP**

**Total Budget:** **22.71**
